

SWING FOR HOPE

This is an annual event to support the University of Arizona Cancer Center. Congratulations to our ILGA members and our community for raising \$10,010 for cancer research at the University of Arizona Cancer Center. ILGA has raised almost \$179,000 since 1997 in our Swing for Hope efforts to drive out cancer. Elaine Cunningham, senior director of development at the University of Arizona Cancer Center and our luncheon guest, gave an update on the center's research projects. She further explained the special program available there to cancer patients. This includes an opportunity for a second evaluation and diagnosis along with treatment plans teamed with trial research efforts. Elaine can be contacted at elaincunningham@arizona.edu or 352-215-7441.
